

## **QUALITY ASSURANCE SUPERVISOR**

### **GENERAL SUMMARY:**

Delphinus Engineering has an immediate opening for an “**Quality Assurance Supervisor**” for our Marine Service Division.

**LOCATION:** San Diego, CA

### **PRINCIPAL DUTIES/RESPONSIBILITIES:**

- Enforcing an effective QA program that meets all the requirements of the Submarine Safety Requirements Manual, the System Certification Procedures and Criteria Manual for Deep Submergence Systems, the DEI-MSD Quality Management Systems Manual, and other higher-level authority guidance.
- Trains Quality Assurance Inspector on proper inspection techniques and utilization of measuring devices.
- Conducts audits/surveillances to ensure adherence to company procedures/policies.
- Confers with management or engineering staff to determine quality and reliability standards.
- Reviews all data, ensuring that performance and quality of products conform to establish company, international (ISO), and governmental regulatory standards and agency guidelines, and to ensure lasting customer satisfaction.
- Recommends modifications of existing quality or production standards to achieve optimum quality.
- Ensuring that all QA forms, Test documents, Task Work Instructions (TWI), URO MRC's, and any other form of Objective Quality Evidence (OQE) requiring initials, signatures or any other verifiable form or acknowledgement of completion are done so in accordance with all applicable manuals, instructions, contracts and other higher-level authority requirements.
- Providing process improvement recommendations and recommended changes to the company Quality Program and procedures.

### **EXPERIENCE REQUIREMENTS:**

- Graduate of high school, trade, or industrial school or GED equivalent.
- Five years' experience in performing quality assurance and control inspection on naval ship Hull, Mechanical, Electrical, Electronic, Ordnance systems for specification and engineering drawing requirement compliance.
- Seven years of specialized experience in inspecting and certifying work on systems/components.

### **SPECIAL REQUIREMENTS:**

- Understanding of ISO 9001, NAVSEA STD Items, and JFMM Quality Assurance, MIL-SPECS, and TECH PUBS applicable to U.S. Navy vessels.
- Familiarity with Level I material control
- Mechanical background a plus
- Must have or be able to obtain a DoD Security Clearance
- Travel and overtime may be required
